

NCC VOLUMES ONE & TWO BUILDING CODE OF AUSTRALIA

Read Me!

Welcome to the National Construction Code (NCC) Resource Kits. This kit provides educational resources which can be used by teaching professions, industry association trainers, or employers to provide an introduction and overview of both Volume One and Volume Two of the NCC.

This kit can be read/delivered as a standalone resource, but we recommend that you have access to the NCC (online or hardcopy) as you go through.

The NCC is free online – just visit www.abcb.gov.au and register to gain access.

This kit contains different components, including FAQs and Case Studies, which can be tailored to the needs of the tertiary institution or organisation that is delivering it. Teaching professions using the resources as presentations to TAFE and university students may wish to show all of the slides in the main PowerPoint presentation to the class. Industry association trainers that are familiar with the NCC however, may prefer to use the 'hide' function of PowerPoint and simply present the slides of relevance or particular interest. Others may wish to only show certain topics which can be found on the table of contents within the first few slides of the presentation. The choice is yours!

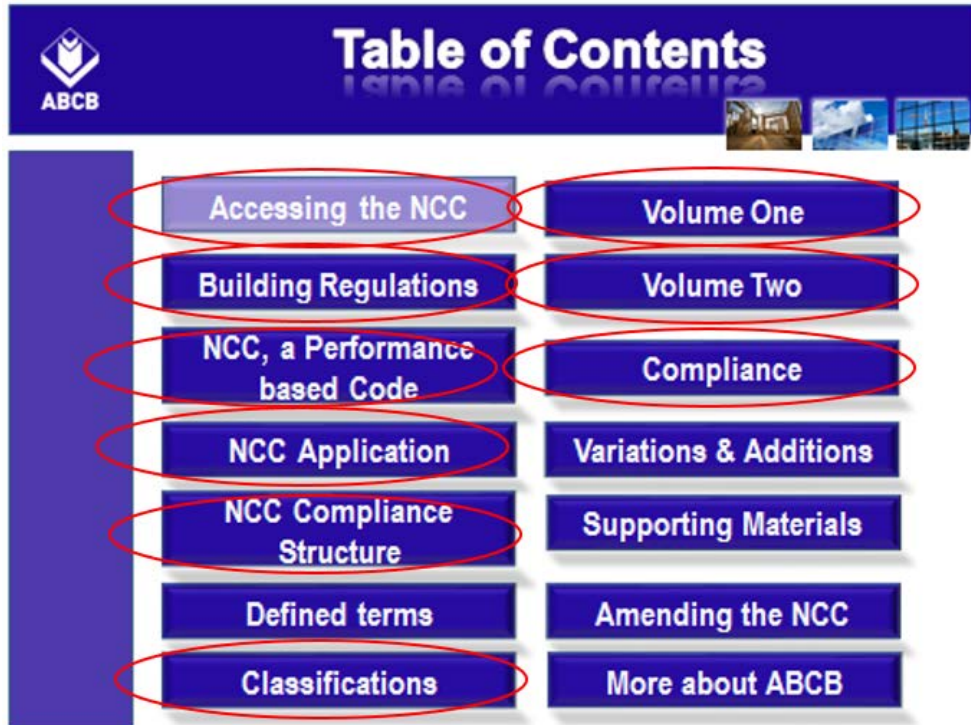

For example, an introductory presentation may only focus on a few sections from the table of contents as recommended below:

A screenshot of a 'Table of Contents' slide from a presentation. The slide has a dark blue header with the ABCB logo on the left and the title 'Table of Contents' in white. Below the header, there are two columns of blue buttons with white text. The left column contains: 'Accessing the NCC', 'Building Regulations', 'NCC, a Performance based Code', 'NCC Application', 'NCC Compliance Structure', 'Defined terms', and 'Classifications'. The right column contains: 'Volume One', 'Volume Two', 'Compliance', 'Variations & Additions', 'Supporting Materials', 'Amending the NCC', and 'More about ABCB'. Red ovals are drawn around the first five items in the left column: 'Accessing the NCC', 'Building Regulations', 'NCC, a Performance based Code', 'NCC Application', and 'NCC Compliance Structure'.

Accessing the NCC	Volume One
Building Regulations	Volume Two
NCC, a Performance based Code	Compliance
NCC Application	Variations & Additions
NCC Compliance Structure	Supporting Materials
Defined terms	Amending the NCC
Classifications	More about ABCB

NCC Resource Kits

- An intermediate level presentation may choose to add a few more topics as recommended below:

The image shows a 'Table of Contents' slide for NCC Resource Kits. It features a blue header with the ABCB logo and the title 'Table of Contents'. Below the header, there are two columns of buttons. The left column contains buttons for 'Accessing the NCC', 'Building Regulations', 'NCC, a Performance based Code', 'NCC Application', 'NCC Compliance Structure', 'Defined terms', and 'Classifications'. The right column contains buttons for 'Volume One', 'Volume Two', 'Compliance', 'Variations & Additions', 'Supporting Materials', 'Amending the NCC', and 'More about ABCB'. Red ovals are drawn around the buttons in the left column, highlighting the recommended topics for an intermediate level presentation.
